**Six Transdisciplinary Themes**

Who We Are	Where We Are In Place & Time	How We Express Ourselves	How the World Works	How We Organise Ourselves	Sharing the Planet
Inquiry into the nature of the self. Beliefs and values. Personal, physical, mental, social and spiritual health. Human relationships including families, friends, communities, and cultures. Rights and responsibilities. What it means to be human.	Inquiry into orientation in place and time. Personal histories. Homes and journeys. The discoveries, explorations and migrations of humankind. The relationship between the individual and the interconnectedness of individuals and civilizations, from local and global perspectives.	Inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values. The ways in which we reflect on, extend and enjoy our creativity. Our appreciation of the aesthetic.	Inquiry into the natural world and its laws. The interaction between the natural world (physical and biological) and human societies. How humans use their understanding of scientific principles. The impact of scientific and technological advances on society and on the environment.	Inquiry into the interconnectedness of human-made systems and communities. The structure and function of organizations. Social decision-making. Economic activities and their impact on humankind and the environment.	Inquiry into rights and responsibilities in the struggle to share finite resources with other people and other living things. Communities and the relationship within and between them. Access to equal opportunities. Peace and conflict resolution.

## Six Subject Areas

Science	Arts	Mathematics	Social Studies			Languages	Physical, Social & Personal Education
Titles							
3-5							
<b>First Science:</b> Hot & Cold, Weather, Sound, Pushes & Pulls, Magnets, Light, Electricity, Materials  <b>My Senses:</b> Hearing, Smelling, Tasting, Touching, Seeing		<b>First Maths:</b> Patterns, Measuring, Shapes, Counting	History	Geography	Religion	Politics & People	Reading for Pleasure
							Funny Faces
							Monsieur Pierre

## The Primary Years Programme (PYP) presents schools with a comprehensive plan for high quality, international education.

It provides schools with a curriculum framework of essential elements: the knowledge, concepts, skills, attitudes, and action that young students need to equip them for successful lives, both now and in the future.

Schools work with the five elements to construct a rigorous and challenging primary curriculum for international education.

The PYP aims to create a curriculum that is engaging, relevant, challenging and significant for learners in the 312 age range. The curriculum is transdisciplinary, meaning that it focuses on issues that go across subject areas.

### The PYP is organized according to:

The written curriculum, which explains what PYP students will learn  
 The taught curriculum, which sets out how educators teach the PYP  
 The assessed curriculum, which details the principles and practice of effective assessment in the PYP
